-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

**Period for Reply**

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

**Status**

- 1) ☒ Responsive to communication(s) filed on 23 July 2007.
- 2a) ☒ This action is **FINAL**. 2b) ☐ This action is non-final.
- 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

## **DETAILED ACTION**

### ***Election/Restrictions***

Applicant's election without traverse of invention I (device) and species B (rigid body) in the reply filed on 7-23-07 is acknowledged.

Claims 19-29 and 33-36 are withdrawn from further consideration pursuant to 37 CFR 1.142(b) as being drawn to a nonelected species, there being no allowable generic or linking claim. Election was made **without** traverse in the reply filed on 7-23-07. Applicant suggests claims 19-23 and 28-35 are readable on the elected species but Examiner disagree because claim 19 recite bellows-like or adjustable body and claims 33-35 recite embodiments non-elected.

### ***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 30-32 are rejected under 35 U.S.C. 102(b) as being anticipated by Smit USPN 4315509. Smit disclose in figures 1-2 a synthetic stomach comprising a storage, two tubes for connection to the esophagus and small intestine, and fixing means. The device is disclosed to be designed as a rigid receptacle.

Claim 30 and 32 is rejected under 35 U.S.C. 102(b) as being anticipated by Wilkinson USPN 5246456. Wilkinson disclose in figures 1-8 a synthetic stomach

comprising a storage, two tubes for connection to the esophagus and small intestine, and fixing means. The stomach storage bulges relative to the tubes.

### ***Claim Rejections - 35 USC § 103***

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claim 31 is rejected under 35 U.S.C. 102(b) as anticipated by or, in the alternative, under 35 U.S.C. 103(a) as obvious over Smit USPN 4315509 in view of Crabb USPN 5820584. The Smit device is disclosed to be designed as a semi-rigid receptacle. Crabb teach in lines 10-12 of column 2 that implantable gastric devices may be rigid if surgically implanted to provide a fixed shape. There it would have been obvious to one of ordinary skill in the art at the time of the invention to modify the device disclosed by Smit to include rigid components as taught by Crabb so that the surgeon could surgically implant the device to provide a fixed shape.

Claims 31 is rejected under 35 U.S.C. 103(a) as being unpatentable over Wilkinson USPN 5246456 in view of Crabb USPN 5820584. The device disclosed by Wilkinson lack the express disclosure of the device being rigid. Crabb teach in lines 10-12 of column 2 that implantable gastric devices may be rigid if surgically implanted to provide a fixed shape. There it would have been obvious to one of ordinary skill in the

art at the time of the invention to modify the device disclosed by Wilkinson to include rigid components as taught by Crabb so that the surgeon could surgically implant the device to provide a fixed shape.

### ***Conclusion***

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
